*This new location is much more flexible for our scheduling: you will notice, if you compare the group times here to the ones that were given out during registration, that we have been able to move the younger groups to later times that are more manageable for parents work schedules.*

*\*\* We will require door monitors. The entry doors will normally be locked at all times. The first parent to arrive has to stay at the door until all families have arrived. Near the end of each class, a parent will go to the door to make sure that the next class can be let in. We will not assign door monitor duties to specific people, as schedules change and it may not always work out that the same person arrives first. If we all work together and aim to be punctual at the times when the groups overlap, this will not be an inconvenience.\*\**
